- o Maintenance and repair of hardware components

CORE SKILLS

Flexible: I have been required to perform multiple roles in a company where I worked as a full stack developer as well as a graphic designer. I worked creating graphic content for the library and wrote reusable code.

Communication and interpersonal skills: Having worked as a freelancer, I have communicated with multiple clients effectively, understanding their requirements and giving informative opinions and advise, my communication and interpersonal skills are excellent.

Teamwork: My roles have required me to collaborate with other professionals to work on either the front or backend of an application.

Adapting: To different situations quickly and finding solutions to problems. Through years of experience, I have dealt with a number of front-end frameworks and database to be used on a particular project. This gave me hands on experience using multiple frameworks such as ReactJS, Laravel, MySQL, MongoDB and more.

COMPUTER SKILLS

- ✓ Programming languages: PHP, HTML, CSS, JAVASCRIPT, Dart(In view).
- ✓ ReactJS, NodeJS, ExpressJS, MongoDB (MERN STACK DEVELOPMENT)
- ✓ Skilled with Adobe creative cloud software: Photoshop, Illustrator, Adobe XD, InDesign.
- ✓ Flutter framework (In View)
- ✓ NextJS
- ✓ Laravel Framework
- ✓ Proficiency in Microsoft Office suite: Word, Excel, PowerPoint.
- ✓ Git, GitHub & version control.
- ✓ Restful API.
- ✓ Graphic Design
- ✓ Reusable components and testing
- ✓ SEO & Code best practices
- ✓ JWS and CrytoJS for Auth Security

INTEREST & SOCIAL

When I am not writing code, I love spending time on the internet and drawing. I am always interested in other web frameworks and how they can improve my workflow. I also spend time on developer community sites such as Stackoverflow and YouTube. Recently I have been looking into blockchain programming and how much impact it may have on the way we use the internet years from now. This will determine how much time I invest into learning this technology, so far blockchain looks promising and may hold the key to a new era "Web 3.0"
